Noda, City of Soy Sauce

The full-scale manufacturing of soy sauce in Noda began during the Edo period. The city was blessed with a climate perfect for making soy sauce, with transportation on the Edo and Tone rivers for easy access to soybeans, wheat, and salt, as well as for shipping products to Edo (Tokyo) in half a day. This allowed Noda to thrive as the “City of Soy Sauce,” and this has continued to the present day.

Information on Nearby Facilities

Noda City Folk Museum
This museum has many exhibits on the breeding of soy sauce in Noda. The adjacent Civic Center was formerly the home of Sakuzo Maya, one of the founders of the Kikkoman company.

Shimizu Park
Shimizu Park is a natural park selected as one of Japan’s 100 best cherry blossom spots. This park offers the enjoyment of seasonal flowers, field athletics, camping, barbecues, and other activities with family and friends.
